FOR IMMEDIATE RELEASE

## **SARAH AUBREY ACCEPTED INTO NATIONAL SPEAKERS ASSOCIATION**

MONROVIA, Ind. - September 13, 2011 - Sarah Aubrey has been accepted as a professional member into the National Speakers Association (NSA) as of August 2011, following the Association's extensive internal review process. Member qualifications include presenting a minimum number of speeches annually and/or generating a minimum amount of revenue from paid speaking engagements. Aubrey is now part of the NSA network which brings professional speakers together to excel in their careers and better serve clients. She is also involved in several NSA sub-groups including the Motivational/Keynote, Seminar/Workshop Leaders, and Writers/Publishers groups. The NSA, established in 1973, is the leading organization for professional speakers. For more information, visit <http://www.nsaspeaker.org/>.

Aubrey provides speaking services focusing on entrepreneurship and small business development strategies, including assisting audiences in finding and applying for grants.

Aubrey is a member of the Writer's Center of Indiana where she consults fellow members on developing successful book proposals suitable for publishers. A full time entrepreneur since 2004, she created and sold a direct marketing business, Aubrey's Natural Meats, LLC. in 2008. She is the author of two non-fiction books with over 50,000 copies sold worldwide. *Starting & Running Your Own Small Business Farm* (Storey Publishing, 2008) helps niche farmers position themselves well for the opportunities afforded by today's market. Aubrey's second book, *The Profitable Hobby Farm, How to Build a Sustainable Local Foods Business* (Wiley Publishing, Inc., 2010) is a down-to-earth guide giving all the information one needs to know to start a local foods business. Aubrey's company, Prosperity Ag and Energy Resources, is a full-service funding opportunities firm which aids entrepreneurs, communities and institutions of higher education in securing grants and loans in the areas of agriculture, energy, environment and food manufacturing. More information can be found at [www.prosperityagenergy.com](http://www.prosperityagenergy.com).
